PROFILE

Final-year Software Engineering student with hands-on experience building full-stack web applications using React, Next.js, Node.js, and TypeScript. I enjoy turning ideas into working products quickly and care about writing clean code and building user-friendly interfaces. Comfortable working in AI-first development environments with tools like Cursor and Claude Code, and always keen to pick up new technologies. Looking to join Bricks Tech as a Software Development Intern to learn from experienced builders and contribute to real client projects.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, HTML5, CSS3

Frontend: React.js, Next.js, Vite, Responsive UI, DOM Manipulation

Backend: Node.js, Express.js, REST APIs, Authentication (JWT, NextAuth, bcrypt), Socket.io

Databases: Prisma ORM, Supabase, MongoDB, SQL fundamentals

AI Tools: Cursor, Claude Code, AI-assisted development

Tools: Git, GitHub, VS Code, npm, Vercel, Postman, Chrome DevTools

Strengths: Problem Solving, Teamwork, Clear Communication, Quick Learning

EXPERIENCE

Full-Stack Development Intern — Rhombix Technologies (Remote)

May 2026 – July 2026

- Building full-stack web applications using React, Node.js, and Express as part of assigned internship tasks.
- Developed a music player application with user authentication (JWT), playlist management, search, and categorisation features.
- Practised real-world debugging, API integration, and frontend-backend connection while delivering working features on schedule.

PROJECTS

Social Network Web Application | Next.js, TypeScript, Prisma, Supabase, Socket.io

github.com/Aminasheikh/social-network

- Built a full-stack social platform with secure user authentication, dynamic post feeds, and real-time messaging.
- Used Prisma ORM with Supabase for data handling and Socket.io for live chat between users.

Developer Portfolio | React, Vite, Responsive Design

github.com/Aminasheikh/amina-portfolio

- Designed and developed a responsive personal portfolio to showcase projects, built with React and Vite for fast performance.

Handle-API | JavaScript, REST API Integration

github.com/Aminasheikh/Handle-API

- Practised fetching, handling, and displaying data from external REST APIs with proper error handling.

Node-Tasker | Node.js, Express

github.com/Aminasheikh/Node-Tasker

- Created a task management tool with Node.js covering core CRUD operations and backend logic.

EDUCATION

BS (Honors) Software Engineering

INTERESTS

Cybersecurity, AI-assisted development, latest web technologies, and continuous self-learning.
